## TAU

### Toroidal Amplifying Unit

The product you just acquired is a **Professional Energy Harmonizing** instrument.

The **TAU**, *Toroidal Amplification Unit* is able to exponentially amplify the effectiveness of the PHI/PHIWATER (*not enclosed*).

The PHI energy field is therefore exponentially amplified both in workload and in harmonizing quality, enabling the TAU to become an effective re-harmonizing environmental instrument.

The instrument is powered by a **CR1612 lithium battery** that has to be precautionally exchanged every two years to keep the device in perfect efficiency.

Replacing the battery is straightforward, just unscrew the round compartment at the base of the instrument in order to access it. Lithium batteries have not to be tampered with, disposed in fire (they could explode!) or placed in ordinary municipal waste, but disposed of in accordance with current regulations..

# Tau

# Technical Specifications

The upper housing, called "central core", has been devised to house in contact both the radiating or the absorbing side of the Phi/Phiwater, for a total of four possible informative patterns.

The TAU is equipped with two identical outlets, to be used as required: one is presetted for connecting the TAU to the mains ground, the other one makes the TAU able to connect to other objects, surfaces or for indirectly irradiate specific body parts.

Technical Specifications

**AETERE'S**

il Phi, che rappresenta una sorta di “hardware attivante”, viene letteralmente “incastonato” nel *central core* del Tau, andando ad **attivare ed informare in maniera specifica** e per conduzione diretta, la macchina sottile che comincia a pulsare ed irradiare un flusso eterico armonizzato e armonizzante di forma toroidale.

Il Tau funge da cassa di risonanza eterica al flusso toroidale generato dal Phi andandone ad amplificare in maniera esponenziale la forza, la potenza e il volume di irraggiamento.

The Phi/Phiwater becomes a sort of "activating hardware" for the TAU which starts to resonate in tune with it and emits an informed, coherent and harmonized toroidal flux. The PHI energy field is therefore exponentially amplified both in workload and in harmonizing quality, enabling the TAU to become an effective re-harmonizing instrument.

Flux Dynamics

The Tau has been engineered to be a powerful, versatile and professional instrument.

**TheraPhi:** professional personal re-harmonization

**Environmental energy re-harmonization**

**Cleansing, harmonizing and energizing of any energetic memory support.**

$\tau$ au  
Guidelines

The instrument reveals itself eclectic also in its radiating patterns, we are infact able to choose between **4 intervention modes**:

Direct

Direct + Volumetric (by means of mains ground connection)

Direct + Dot-Like (by means of connection to objects, surfaces or electrodes)

Direct + Volumetric + Dot-Like (by means of both outlets simultaneously)
